deposited inspection copies of HR & D's publications, listed below, in the Housing Centre Bookshop, and has undertaken to supply orders for them addressed to:

Housing Research and Development Program, University of Illinois at Urbana-Champaign, 1204 West Nevada Street, Urbana, Illinois 61801, USA. Cheques should be sent with the orders made payable to the University of Illinois, and a separate invoice will be sent for the cost of postage and handling. (Orders will be mailed at reduced, printed sample rate unless air mail is requested.)

In addition to HR & D's publications the following publications by HR & D staff are available for inspection in the Housing Centre Trust Library:

Residents' Satisfaction in HUD-Assisted Housing: Design and Management Factors by University of Illinois, Housing Research and Development Program. Published by US Department of Housing and Urban Development. March 1979.

Planning for the Elderly: Alternative Community Analysis Techniques. Edited by Victor Regnier AIA. Published by the Ethel Percy Andrus Gerontology Center, University of Southern California. 1979.

Professor Katz will be glad to hear from anyone interested to learn more about HR & D at the above address or, if visiting the US, by telephone at 217/333-7330.

HR & D publications available in the HC Bookshop for inspection and for supply direct:

## *OCCASIONAL PAPER*

**Aspects of Housing Policy and Practice in Northern Ireland**

Edited by Dale Singleton

Little has been published recently on housing in Northern Ireland and the *Occasional Paper* will therefore help to fill a gap by bringing together under one cover a series of articles on it which appeared in the *Housing Review* in 1982/83.

The contents include items on the problems of housing a divided community, dwelling unfitness, public sector house sales, rent schemes and housing associations. Some of the contributions highlight housing conditions in Belfast and the response being made to tackle the city's massive housing problem.

The *Occasional Paper* contains contributions by C. E. B. Brett, Chairman of the Northern Ireland Housing Executive, and members of its staff; also members of the Queen's University Town and Country Planning Department, including a number by Dale Singleton himself, who is Northern Ireland Correspondent of the Housing Centre Trust.

Copies of the occasional paper can be obtained from:

**Agricultural and Planning Information Service,**
**The Science Library,**
**Queen's University, Belfast,**
**Chlorine Gardens,**
**Belfast**

**or through the Housing Centre Bookshop.**

**Price £2·50 including postage.**

# Index to Housing Review Vol. 32, Nos. 1-6 1983

We are again publishing this index which has proved useful as a quick reference to a year's issues of the *Housing Review*. All articles and items are listed under broad subject headings, except book reviews which are listed separately at the end of the subject index. Reports of HCT functions are listed under that heading by the name of the function, but individual papers are listed also under their appropriate subject heading.

Allowing for changes of emphasis over the years the same broad analysis of subjects has been used since we started compiling this annual index, to make it easier for readers who wish to do so to compile a cumulative index. We realise the limitations of the system which rests on our subjective judgement of which is the most important subject to which each item should be allocated. For the sake of brevity only a very few articles have been allocated to more than one subject heading and we think users will therefore find it helpful to read the headings to each section before seeking a particular item.

The Index of Authors includes all contributors of main articles and those whose papers at seminars have been reported under their names.

The figures in heavy type denote the issue in which the item appeared, the figures in light type the page. (L) indicates a leading article; (N) an item in the Notes and Comment section and (SN) one in Shorter Notes; (R) indicates a report of a contribution at a HC function, which may be a brief summary or comparatively full paper.
